PRAYER OF ST. FRANCIS OF ASSISI

Lord, Make me a channel
of your peace;
Where there is hatred, let me sow love;
Where there is injury, pardon;
Where there is doubt, faith;
Where there is despair, hope;
Where there is darkness, light;
And where there is sadness, joy.
O Divine Master,
Grant that I may not so much seek
To be consoled as to console;
To be understood as to understand;
To be loved as to love;
For it is in giving that we receive;
For it is in pardoning that we are
pardoned;
And it is in dying that
we are born to eternal life.
- Amen

"The best and most beautiful things in the world cannot be seen or even touched — they must be felt with the heart." – Helen Keller

Euphoria is the language of the soul — a harmony of joy, hope, courage, empathy and creativity. It is through emotions that children learn to connect with the world, understand themselves and grow into compassionate, confident individuals. At Vidya Vikasini, we believe that education is not only about academic excellence but also about nurturing the heart and mind.

Our journey through the year has been a symphony of experiences that celebrate curiosity, resilience, teamwork and self-expression. Each activity, achievement and memory captured in this magazine reflects the vibrant emotional landscape of our students. True growth blossoms when intellect is balanced with emotional intelligence and well-being. By encouraging our learners to feel deeply, think wisely and act purposefully, we empower them to face life with confidence and grace.

As we present this edition of our magazine, we celebrate a journey filled with colour, rhythm and heart. May these pages reflect the harmony of minds and emotions working together, inspiring every reader to grow into thoughtful, balanced and joyful human beings.

Rev. Bro. Xavier Alexander ,CMSF
(Provincial of St. Francis Xavier Province)

Dear Sr. Selvi John Mary, Principal,

EUPHORIA: A SYMPHONY OF JOY AND HAPPINESS.

On the occasion of the Annual Day of Vidya Vikasini School (C.I.S.C.E.), I am extremely happy to write a few lines about the school, its activities and the annual day itself. The school has grown to greater heights in quality and in number over the years. The academic and co-curricular activities offered here strengthen intellectual intelligence, physical flexibility and emotional well-being in a well-balanced state. It is a place for the development of intelligence in its multiple forms, a place of opportunity for achievement and a place to put quantitative skills to use in the work of discovery; a place for the cultivation of enjoyment in forms that go beyond entertainment or distraction, stimulating our capacity to create joy and happiness for ourselves and others. In fact, it is a state of euphoria—excitement—an exalted way of living while being busy with academic subjects and other activities.

Keep in mind to acquire academic excellence, research excellence, leadership excellence and character excellence by the time you complete your schooling. These can be experienced in the classrooms and the labs, over meals and outside in the playground, wherever bright and creative minds come together in co-curricular activities. Always be guided by the campus values—respect, intellectual curiosity, integrity, commitment, empathy, mutual appreciation and fun.

We envision a just and sustainable world; therefore, education for the 21st century must speak to all dimensions of a human being—intellectual, emotional, aesthetic, ethical, spiritual and somatic. Such an education transforms ordinary knowledge into wisdom and cultivates compassion and service to others and the Earth, preparing students to change the world for the better.

I am sure that V.V.S (C.I.S.C.E.) is preparing its students to meet all the challenges they face in life and enjoy their freedom to be happy and joyful always.

With every good wish,
Brother Xavier Alexander, CMSF
Provincial

Rev. Bro.Mariadasu , CMSF
(Manager, VVS (CISCE)

On the joyful occasion of the publication of our School Magazine on the theme "Euphoria" I am delighted to share a few thoughts with our dear students, teachers and parents. Vidya Vikasini School (C.I.S.C.E.) is not just a centre of learning; it is a place where minds awaken, hearts expand and lives are shaped with purpose and hope. True education is not merely the accumulation of facts but the discovery of meaning joy and responsibility in everything we do.

"Education is not the filling of a pail but the lighting of a fire" said W.B. Yeats. At V.V.S. that fire is lit every day—in classrooms laboratories playgrounds and on the stage—where curiosity meets creativity and discipline meets delight. The academic and co-curricular activities here are designed to nurture intellectual strength emotional balance physical vitality and spiritual depth leading our students toward a life of confidence and inner happiness.

Euphoria is not just excitement for a moment; it is a way of living with passion gratitude and purpose. As Albert Einstein wisely said ***"Learn from yesterday, live for today, hope for tomorrow. The important thing is not to stop questioning."*** Our school strives to help students feel the joy of learning the thrill of discovery and the satisfaction of service. When young minds come together with integrity empathy and commitment they create not only success but also a culture of kindness and mutual respect.

In a rapidly changing world we need young people who are not only intelligent but also compassionate and courageous. Let your schooling here shape you into leaders who think deeply, act wisely and live joyfully. May this magazine reflect your talents your dreams and your enthusiasm for life. I am confident that V.V.S. (C.I.S.C.E.) will continue to prepare its students to face the future with hope strength and euphoria.

With heartfelt regards,
Brother Maria Dasu, Manager
Vidya Vikasini School (C.I.S.C.E)

Principal's Message

EUPHORIA: A SYMPHONY OF JOY AND HAPPINESS

Euphoria is a beautiful expression of the human spirit. It is not merely loud celebration or temporary excitement; it is a quiet, lasting joy that arises when hearts, minds and actions are in harmony. When individuals come together with a shared purpose, respect and hope, life itself turns into a symphony of joy and happiness.

"Happiness is not the absence of problems, but the ability to deal with them."
-Steve Maraboli

At Vidya Vikasini School (C.I.S.C.E), euphoria is experienced not only through achievements and success, but also through values such as discipline, cooperation, perseverance and compassion. True joy blossoms when learning goes hand in hand with character formation. Academic excellence may bring recognition, but goodness of heart brings lasting fulfilment.

Happiness grows when we appreciate small efforts and silent contributions. A sincere attempt, an honest struggle, a helping hand, or a word of encouragement can create ripples of positivity far beyond what we imagine.

"Joy is not in things; it is in us."
- Richard Wagner

As a community, we are reminded that joy multiplies when it is shared. When we respect one another, celebrate diversity and support those who are in need, our environment becomes one of peace and purpose. In such an atmosphere, every individual feels valued, motivated and inspired.

Life, however, is not always smooth. Challenges and failures are inevitable. Yet, even in such moments, euphoria is possible—when we face difficulties with courage, patience and hope. Every challenge carries a lesson, and every effort brings growth.

"Success is not the key to happiness. Happiness is the key to success."
- Albert Schweitzer

Let us strive to create joy not only through accomplishments, but through attitudes, gratitude instead of complaint and kindness instead of indifference and unity instead of division. When we live with purpose and integrity, happiness naturally follows.

May this spirit of euphoria continue to guide us, transforming our work into meaningful service, our learning into wisdom and our lives into a harmonious symphony of joy and happiness.

Yours sincerely,
Sr. Dondeti John Mary, Principal
Vidya Vikasini School (C.I.S.C.E)

GREAT LEADERS DON'T WAIT FOR CHANGE THEY BECOME THE REASON CHANGE HAPPENS

As this academic year draws to a close, we look back not just at the days we spent in classrooms but at the journey that shaped us into stronger, wiser and kinder individuals. Every challenge taught us resilience, every success built confidence and every shared moment strengthened our bond as a school family. These experiences are the true achievements we carry forward.

I would like to express my heartfelt gratitude to our Principal, teachers and school management for their constant guidance, support and belief in every student. Your encouragement has shaped not only our academic growth but also our character and confidence. I am also deeply thankful to my fellow council members and classmates for standing by me and working together with dedication and trust.

Serving as Head Girl has been both an honour and a responsibility—one that taught me that leadership is not about standing ahead but about standing together.

To the generations that follow, remember: dream boldly, work sincerely and lead with compassion. The legacy of a school is built not by a few but by every student who dares to make a difference. May we leave behind footprints that inspire others to walk further than we ever did.

Yours sincerely,
Aanya Srivastava,
Head Girl

When I was selected as the Head Boy of my school, I felt proud, grateful and, to be honest, a little nervous as well. It was an honour to be entrusted with such a responsibility. I would like to begin by expressing my heartfelt thanks to our Principa, Rev. Sr. John Mary, teachers and the school management for believing in me and giving me this opportunity. Their constant guidance and encouragement supported me throughout my journey.

My journey as School Captain taught me many valuable lessons. It was not always smooth or easy. There were times when I made mistakes, struggled to manage my time or felt unsure about the decisions I made. Sometimes, I questioned whether I was doing enough or moving in the right direction. However, these challenges helped me grow and understand myself better. Gradually, I learned to stay calm, accept my mistakes and move forward with renewed confidence.

As John C. Maxwell wisely said, “Leadership is not about titles, positions or flowcharts. It is about one life influencing another.” This role made me realise that leadership is not about being perfect. It is about taking responsibility, listening to others and working together as a team. I also learned the importance of discipline, especially when balancing academics with leadership duties. Working closely with my teachers, council members and classmates taught me the true value of teamwork.

I would like to thank my classmates for their continuous support and cooperation throughout the year. You made this journey smoother and more meaningful. To my juniors, your enthusiasm and energy bring life to our school. Stay involved, keep learning and never be afraid to make mistakes because that is how growth truly happens.

To all my fellow students, always believe in yourselves and keep trying even when things feel challenging. Every experience teaches us something important. I am proud to be a part of this school and I will always carry its values with me. Let us continue to grow, learn and make our school proud.

With sincere thanks,
Master Purnay Ghadge,
Head Boy

This slogan was given by Lal Bahadur Shastri, the second Prime Minister of India. He coined this patriotic slogan in 1965 during a public address while the country faced both the Indo-Pakistan War and a critical food grain shortage. The slogan was a call to motivate soldiers to defend the nation and encourage farmers to increase food production, ultimately aiming for self-sufficiency.

May every generation of our country relive those moments and be aware of the struggles faced and learn life's lessons from the turbulent history of our great country.

The Constitution is more than a document, it's a promise to every citizen.

The Government of India officially declared November 26 as Constitution Day in 2015 to mark the 125th birth anniversary year of Dr. B.R. Ambedkar, the chief architect of the Indian Constitution. The day is celebrated to promote constitutional literacy and reaffirm the citizens' commitment to the values enshrined in the Preamble of the Constitution.

A mesmerizing Special Assembly was put up by the students and teachers of Stds IV & V complete with a prayer dance, a special song on the Constitution, a special performance on the Preamble and a skit on our Fundamental Rights which was the highlight of the assembly. A tribute to Dr.Ambedkar and a meaningful activity for all the teachers to practically apply the values he promulgated through our constitution, made the day more personalised for the social development of all the students in the audience.

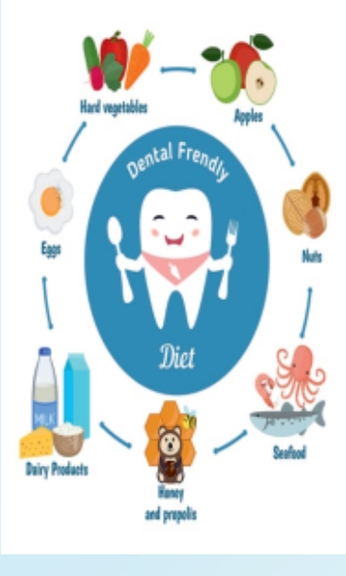
A Session on Oral Hygiene

Pre-Primary Section

This year, we were privileged to have our very own ex-student, Dr. Richita Nair, as our resource person to speak to our students about basic Oral hygiene and dental care. She was nostalgic to be back in the school where she began her own Pre-primary and passed out with flying colours in Std. X going on to becoming a dentist.

She held a short but lively and interactive session about basic dental care through a very cute and age- appropriate video and a lot of questions asked to the tiny tots who answered with great enthusiasm.



GRADE IX&X

CAREER COUNSELLING SESSION

14TH MARCH 2026

A Career Counselling Session was organized for the students of Grade IX and X. The Guest Speaker was Dr. Leeyan Dias from HOPE. The session was designed to provide valuable guidance to both students and their parents in making informed decisions regarding future academic streams and career opportunities.

Our Principal, Sister Johnmary gave an intriguing start to the session by presenting a story drawing a parallel to their life with a person climbing a mountain who starts with great enthusiasm but as the journey gets tougher and diverse paths emerge, challenges become overwhelming. Here , the role of the Parent as the person holding the lamp to illuminate dark passages and the teacher holding the map to show the way, is crucial.

Dr Leeyan exhorted the parents present to support the career choices made by their children and understand their deep emotions and passion. She guided them to make the students meta-cognitively ready to face the future, be actively involved in their routine and monitor their child's socialising with friends in a sensible manner which is not detrimental to them.

Indeed, such sessions are the need of the hour in a student's life bombarded by the various influences of the media.

18th March, 2026

We learned about animal husbandry and the equipment farmers use daily. It was a joy to explore the lush green fields to see various crops such as cowpea beans, radish, cluster beans, hibiscus, ash gourd, bottle gourd, lemongrass, banana, marigold. lady's finger and paddy. We recorded observations and gained practical knowledge about farming tools and crop maintenance. The visit highlighted how natural factors like weather, greatly influence the farming process. We realized the significant physical effort and discipline needed for farm work. The experience deepened our respect for farmers and the crucial work they do for our country. Overall, it was a meaningful lesson, teaching us to be grateful for the toiling hands that feed the nation.

What better way to end a dynamic academic year with a spirited get together of all the entire staff to laugh and sing and dance and play!!!We began with our Principal leading us through a session of introspection and group discussion of the feedback form filled by all the teachers around the following questions:

- How effectively were the learning objectives of your subjects achieved this year?
- What teaching strategies worked best in engaging students meaningfully?
- Where did students struggle the most and how did you address those challenges?
- How well were slow learners and advanced learners supported?
- In what ways did you integrate values, creativity, and critical thinking into your lessons?
- How effective was your classroom management and student engagement?
- What professional growth did you experience this year?
- What changes would you suggest for improving teaching learning in the coming year?

It was heartening to see that every teacher wants the best for her students and is eager to learn and grow, changing for better in the forthcoming academic year.

होती है गलतियां जरूर
माफ करना सीखो दोस्त,
क्योंकि तुम्हें एक ही मौका मिलता है L
उसे गवना मत सीखो दोस्त
याद रहेंगे वह बचपन के खेल
शिक्षकों की डांट से मिलता है ज्ञान
शिक्षकों से मत डरो
आते तुम्हारी भलाई के काम
शिक्षकों का करो आदर सम्मान
इसी में छुपा है सार। उपहार

पर्यावरण

एक ही जग है , एक ही धरती
हमारी धरती हम सबको संभालती
हम रहते हैं इस जग में बेफिकर
पर धरती को हमेशा हमारी फिकर
हम इस धरती को बचाएंगे
और एक नई जिंदगी बनाएंगे
मैं तुमसे एक सवाल पूछना चाहती हूं
क्या तुम सच्ची इस जग को बचाना चाहते हो ?

माँ

प्यारी जग से न्यारी माँ,
खुशिया देती सारी माँ,
चलना हमें सिखाती माँ,
मंजिल हमें दिखाती माँ,
सबसे मीठा बोल है माँ,
खाना हमें खिलाती माँ ,
लोरी गाकर सुलाती माँ,
प्यारी जग से न्यारी माँ,
खुशियाँ देती सारी माँ,

मेरी माँ

मेरी माँ , मेरी माँ
मेरी माँ है सबसे प्यारी
उसके गोद में है फुलवारी ,
उसकी बातें मन को भाए ,
वो मेरी हर डर को भगाए |
माँ की हँसी में दुनिया समाई ,
वो मेरी हर दुख को भगाए |
वो जैसे कोई ना होई ,
माँ थके मन को हलका बनाए |
माँ की बातें मीठी अमर कहानी
वो हर कदम पर साहस बढ़ाएं
माँ ही जीवन की सच्ची रानी ,
माँ मुश्किल में हमेशा साथ निभाए |
माँ मेरी सपनों की रखवाली ,
वो हर राह में दीप जलाए ,
उसनेही मेरी दुनियाँ ढाली ,
गलती पर वही पास बुलाए |

मेरी माँ, मेरी सबसे प्यारी माँ
माँ ही मुझे खिलाती पिलाती
और अपने चरणों में सुलाती ।
सच बोलना मुझे वही सिखाती

माँ ही हमारी पहली शिक्षक
मेरी माँ सबसे प्यारी माँ।।

माँ की कविता

माँ तो जन्नत का फूल है,
प्यार करना उसका उसूल है।
दुनिया की मोहब्बत फिजूल है,
माँ की हर दुआ कबूल है।
हे इंसान माँ को नाराज करना,
तेरी भूल है।
माँ के पैरों की मिट्टी,
जन्नत की धूल है।

माँ की ममता

माँ की ममता की छाया,
सब दुख दूर भाग ले जाए।
तेरे होने से मेरा जीवन,
फूलों सा ही महक जाए।
थक जाऊ जब दुनिया से,
तेरे गोद में सो जाती हूँ मैं।
तेरी मीठी सी मुस्कान मुझे,
हर मुश्किलों से बचा लेती।
तू ही मेरी पहली गुरु,
तू ही मेरी सच्ची राह।
तेरे बिना मैं अधूरी हूँ मैं माँ,
मेरी खुशी तू है माँ।
तुझसे बढ़कर कोई नहीं,
तेरी दर्जा सबसे ऊंची।
ईश्वर माँ और पिता के रूप में मिलता,
मेरी पूरी दुनिया तू है माँ

मेरी माँ

मेरी माँ मेरी जान
उसका प्यार देती पहचान
वह बहुत ही सीधी मगर
वह देती मुश्किल में हाल
उसके सामने सब है बेकार
क्योंकि वह मेरे जीवन में भरती सुरताल
जो मैं कहता वह दिलाती
कभी मुझसे न टकराती जब बीमार रहता हूँ
वह मुझे आराम दिलाती
उसके बिना अधूरा संसार

मेरी माँ

मेरी माँ है सबसे प्यारी

सबसे सुंदर सबसे निराली

मुझे पढ़ाती साथ लिखाती और खेलती

मुझे सबसे पहले खाना खिलाती

फिर खुद खाती

मेरी सारी इच्छा पूरी करती

और मुझे रानी की तरह रखती

रात में बालो में चंपी करती

और मेरा ख्याल रखती

जब बीमार रहो तो डॉक्टर बन जाती

और मेरी मलमपट्टी करती

मेरी माँ सबसे प्यारी

सबसे सुंदर सबसे निराली

पाठशाला

हम बच्चे हमेशा पाठशाला जाते हैं
और ज्ञान लेते हैं।
बहुत सारे दोस्त मिलते हैं,
जो हमारी हमेशा मदद करते हैं।
कोई अच्छे होते हैं या शरारती
पर सब करते हैं विद्या की आरती।
सारे शिक्षक बताते हैं
जिंदगी में आगे बढ़ाने की कल्पना
शिक्षक हमें पढ़ना लिखना सिखाते हैं
और हमें सही मार्ग दिखाते हैं
पाठशाला हमारे लिए मंदिर समान होती है
जो हमें हमारे भविष्य को तैयार करती है
हम खाते ,कूदते और खेलते हैं
और अपनी बुरी भावना को बदलते हैं।

जननी

भेजा है भगवान ने कोई
हमें खिला-खिला कर भूखे पेट है सोई
मां को नाराज करना हमारी भूल है
उसके कदम धरती के फूल हैं
हर एक मां होती है सुंदर
जो संभालती है हम जैसे बंदर
कमजोर मत समझो मां को
झांसी की रानी है उसके अंदर
लोरी वह सुनती है
पढ़ाई वह करती है
खाना वह बनती है
लेकिन खुद भूखी रह जाती है
सवाल करो अपनी मां को
क्यों करती है तुमसे प्यार हुआ वह
उत्तर अभी नहीं मिलेगा
सिर्फ मां बनकर समझेगा।

पाठशाला

क्या दिन थे वह भी
जब कभी बच्चे थे हम भी
ना सुबह की फिक्र थी
ना शाम का ठिकाना
हर सुबह पाठशाला ना जाने के लिए बहाने बनाते
और स्कूल पहुंचकर हम अपने सारे दुख भूल जाते
हर एक पीरियड में
बस रिसेस का वेट करते थे
एक सप्ताह के इंतजार के बाद
पी.टी. का पीरियड आता था
उसने भी वह प्रोक्सी में चला जाता था
वह दिन अब सिर्फ
यादों का हिस्सा बनकर रह गए हैं।

दुनिया में लाया था जिसने
चलना फिरना सिखाया था जिसने
जिस देवी ने मुझे जन्म दिया था

कष्ट किया जिसने पालने में
शिष्टाचार से ढा1लने में
उनका ऋण चुकाने के लिए
भगवान के दिए गए सात जन्म भी पड़ गए आधे अधूरे
उन देवी की मूर्ति को मेरा सादर प्रणाम
हाथ उनका ही होता है मेरे सर पर
वही तो है मेरी जान आन बान और शान
मेरी मां है वह प्यारी फूल की कली जो रहती है सदा दिल में

झाड-माझा मित्र

उन्हात उभं राहूनही, मला सावली देतं झाड.
मी थकलो की कुशीत घेतं, माझ दुःख समजतं झाड.
फुलं, फळ, शुद्ध हवा, न बोलता सगळं देतं,
माझ्या हसण्यात सामील होतं,
माझ्या अश्रूनाही ओळखतं.
पक्ष्यांचं घर, माझा मित्र, निसर्गाचं सुंदर गीत.

आज-झाड वाचवीन, जग वाचवीन,
कारण झाडच आहे माझा जिवलग मित्र !

IF I WERE INVISIBLE FOR A DAY

If I were invisible for a day,
In markets, I don't need to pay.
Anywhere, I can hide
Run or trick anybody's side.
When I meet people, I will say,
If I were invisible for a day

I will walk through the woods.
Snatch from people their precious goods
But I will respect their space.
Invisibly I will win a race.
When I meet people, I will say,
If I were invisible for a day.

THROUGH THE EYES OF A TREE

'Please don't cut me!' they cried,
But he showed no mercy as they died.
No one punished him for this cruel act,
They gave him a lot of money in fact.

So many of these poor creatures are dying,
They are even sold illegally by lying.
You might ask – Who are these creatures?'
They are **trees**, Mother Earth's favourite creatures.

Why are we destroying our planet Earth
When she cares for us and never lets us get hurt?
I end this poem with a question for you,
"You want to save Mother Earth" – **is that true?**

THE MAGIC OF SEASONS

Flowers Bloom,
When summer starts.
All the leaves fall,
When autumn calls.

Forming of puddles,
When rains cuddles.
Flakes fall on earth,
When winter takes birth.

All seasons are fall & joy,
Some with sorrow, some with hope.
People think all the time,
That fun accompanies seasons all the time.

SAME LIFE, YET DIFFERENT

I'm no god above the skies, Yet I might be higher, wise.
Life feels golden, sweet, complete, Fortune's smile at is my feet.
Money, fame, my friends, my clan—What more could heaven grant to man?
I'm no king with a crown to wear, Yet I'm getting halfway there.
Life is rich, but richer still ...If I could bend it to my will.
A little greed? No harm to me, For joy's my guilty gluttony.
I'm not blissful all the while, Yet I'm grateful through each trial.
Fortune's dice have rolled me lean, Still I dance through every scene.
For someone's burden's surely worse—I laugh, not linger on the curse.
I'm no madman, so I say, Though my thoughts may run astray.
I'm turning puzzles in my head... Of paths I've walked, of words I've said.
Perhaps one day the truth will gleam ...A brighter light to crown my dream.

THE STAR IN MY EYE

Mother, mother where are you?
I am here, where are you?
Dark of night doesn't make me fear
As I know that you are here.
Mother, you are like shade in the sun
Mother, you are like summer' rain's fun
You are the soothing balm of my life,
When I have you, there is no fright.
Millions of stars in the sky
But you are the only star in my eye
It is you whom I hold most dear
My love for you multiplies with each passing year.
Seasons come, and seasons go
My only happiness is that you should know
When it's time to call it a day
It's for your happiness that I always pray.

A DAY AT THE BEACH

Last Saturday we packed our things and left early at 5:00 a.m. My family and me visited the beach. that morning My father drove us to Vasai beach. When we reached , the sun was shining brightly, the sky was clear and the breeze was cool. We had a light breakfast of bread and butter . I couldn't wait to play in the water, build sandcastles and enjoy the day out.

As soon as I reached the beach, the smell of the salty sea and chocolate waffles wafted through my nose . We ate delicious waffles and enjoyed it. I heard the crashing waves, children laughing and seagulls cawing sweetly. I saw sand, waves and people sitting under huge umbrellas. I also saw a woman sitting on a mat with her children enjoying the beautiful view. After resting for some time in the sun, I put on our swimming suits and we swam in the sea . My parents surfed and we laughed heartily at them. My brother and I put sunscreen on our faces and started to build sandcastles. Soon, our stomach started growling so we ate some noodles and collected shells. While doing so, we saw an oyster and picked it up and to our surprise we found a pearl in it ! Later we played volleyball and frisbee with our parents and ate snacks like chips and had soda. It was one of the best days of my life . I especially loved swimming and collecting shells.

I hope we visit Vasai beach again.

WHISPERS FROM PAST!

Whispers from the past,
Telling things no one dared to ask...
The secrets of the universe,
And the wonders that lie within...
The whispers are slow and few,
Binding us to a past we never knew!
It is something we all need,
Though we never dared to seek.
The whispers are sometimes dark and deep,
Filling our hearts with guilt we keep.
But some are joyful, moments of love,
Lifting our spirits, making us feel worthy enough.
One thing we all must know—
The whispers don't decide where we will go.
So, we must live with all we have,
And understand life better with every step we take.

MY BEST DAY EVER

It was my ninth birthday and I was very excited. As soon as I went to the classroom, I felt strange because there was nobody inside. After some time, I heard my classmates scream, "Surprise!" I was astonished. Later, in the assembly, everyone sang a birthday song for me. During the break, I distributed chocolates and enjoyed my morning at school. When I reached home, my mother had made my favourite dish—pizza with cheese. In the evening, I dressed in my best clothes and went with my parents to my favourite restaurant, where all my friends had gathered too. I enjoyed the day a lot. I was very happy as we all danced and played. I unwrapped my gifts and liked them all. It was truly the best day of my life..

A JOURNEY TO REMEMBER.....A JOURNEY FULL OF SURPRISES!!

The first day that I stepped into these premises,
Little did I know this journey would be full of surprises...
Clumsy hands, scraped knees and eyes oh-so bright,
Our teachers were always our guiding light.
We lost and made new friends along the way,
Writing our exams and waiting for vacations in May.
We grew up laughing and sharing our lunches,
Celebrating birthdays, sketching on the benches.
Parliamentary sessions, assemblies and sports,
We participated in all we could—every sort.
Wouldn't we replay those memories? Oh, we would!
And cherish every moment, if only we could!
These days that began with joy and curiosity,
Now end with dreams of moving to a new big city.
Dreams and aspirations high, sunny afternoons
and -carefree times will end,
But along the way, this school became my best friend.
As I approach my last day in these premises,
I hope my journey ahead will be full of surprises.

A DAY AT THE BEACH

I was excited when I heard that we were going to the beach. So my family and I packed our bags and left early in the morning.

We arrived at the beach after two hours of travelling. As we were strolling on the beach I heard the waves crashing, birds chirping, people enjoying and children laughing .The aroma of the delicious food and salty water made me happy. I went for a swim and enjoyed plying in the waves. collecded sea shells and built sand castles . I also played beach games with my father. My parents brought many snacks so we took a break to relish them. It was one of the best day of my life. I enjoyed swimming in the water and collecting sea seashells. I had a great time with my family.

PATRIOTISM IN PRACTICE

At **Vidya Vikasini CISCE** we believe that true education is not just about academics but about shaping responsible, value-driven and patriotic citizens. Since our childhood our Value Education lectures have taught us life lessons that inculcate honesty, discipline, respect and compassion. These values form the foundation of our character and prepare us to contribute positively to society. Our school makes a strong effort to instill patriotism and cultural awareness in us through meaningful activities and everyday practices.

Every morning the assembly begins with the national anthem followed by news headlines that keep us updated with current affairs. Teachers explain the significance of national events—from elections and government decisions to achievements in sports and space missions—helping us understand how they shape our country and our roles as citizens. For example, discussions on India's space exploration or the bravery of our armed forces not only make us proud but also encourage us to be more aware and responsible.

Alongside patriotism our school strongly nurtures respect for India's diverse cultures. Assemblies and classroom activities often focus on regional festivals, traditional art forms and folk stories. This integration of different cultures into the teaching-learning process allows us to appreciate diversity and recognize unity within it. Activities like drawing, painting, essay writing and debates on patriotic and cultural themes help us express our thoughts creatively and confidently.

Special programs on Independence Day, Republic Day and other festivals bring together skits, songs and dances that showcase both national pride and cultural richness. For instance, this Independence Day we presented a skit on the Pulwama attack that portrayed the bravery of our soldiers and the unity of our nation. Such events move audiences deeply while also grooming students to be empathetic and socially aware.

Teachers also emphasize discipline, respect for national symbols and values like honesty, unity and cooperation. By blending cultural exposure, patriotic practices and moral education **Vidya Vikasini CISCE** ensures that students grow into well-rounded individuals—confident, value-based and proud citizens of India. At our school patriotism and cultural respect are not confined to special occasions; they are a part of our daily life and learning.

WHISPERS FROM THE PAST

I wonder what it was like a hundred years ago
But till then, I will have to find
Someone who knows.
From the dark ages in the night
To the modern era in the light.
There were heroes who died trying
To keep a successful nation's flag ever flying.
Once there was a boy with no sight
He was scared and alone in the dark night.
This is the only reality that we try to hide
But it resonates with us deep inside.
These are the whispers of the past
That show the truth, that nothing lasts.
We try to suppress them from our sight
But it is the inevitable truth that bites.

HE COLOURS OF EMOTIONS

The colours of emotions,
Light up our lives.
Emotions that cover,
All the unsung strifes.
The tinkle of happiness,
Made the day awake.
The tremble of anger,
Made the world beneath shake.
Sorrow of the heart,
Drowned all thought.
Arrogance burnt every,
Dream once sought.
Every emotion holds,
A meaning untold.
Every emotion keeps,
Us all alive.
Working endlessly,
In a meaningless hive.
Living every day,
Is a must.
Though we are just,
A speck of dust.
Emotions help,
To ease the pain.
Truly they just,
Keep our minds sane.
The colours of emotions
Have endlessly bled
To print the stories
We all once dreamt.

THE LAST DAY OF SCHOOL

The last day of school!!
Sounds weird, right?
I hated this place,
More than words can express!
Yet, as the final bell
Tolls ominously near,
I'm left in tears,
With a heart that's unclear.
No more nicknames,
No more teasing fun,
No more bunking,
No more adventures to begin.
No more wandering in the corridors,
Hoping to catch a glance,
No more laughter with friends,
In this familiar dance.
Will new friends replace the old?
Will innocent love stories unfold?
Will excuses for homework disappear?
Only time will tell, through joy and tear.
No more uniform checks,
No more polished shoes,
No more reminders to trim my nails,
Clear nail polish hues.
It's the end of an era,
A chapter closed,
A bittersweet goodbye,
To memories disclosed.
I thought I'd be happy,
To be free at last,
But my heart remains heavy,
With a lingering past.
Perhaps someday,
I'll return to carefree days,
And laugh once more,
With joyous, youthful ways.

RISE TO A NAME WORTH CHERISHING

Daily marching mornings, as the school gate opens,
A Teacher's role is to make every student gently awaken.
Knowledge spreads along the path of wise decision,
While moving ahead with focus and clear vision.
The smallest steps taken are growth for every mission,
Come along with many challenges to be met with strong ambition.
Productive work and friendly talk go hand in hand,
Books and brains, with team spirit, become a shining brand.
Geometrical figures, geographical regions,
Teachers train young minds to think and reason.
Content and clear, a journey far and beyond,
Unravelling mysteries of the universe, to shine like the dawn.
In every great success, the steps walked with grace,
With commitment and consistency in finishing the race.
Students find a remarkable place across the globe,
Like shining stars, spreading their light through grand robes.
Time passes by, changes are seen,
Yet memories stay fresh and evergreen.
Each moment lived at school becomes a treasure to keep,
Stored in each heart, forever fresh in our memories deep.
The place of learning becomes a pool of knowledge wide,
Where swimmers nurture dreams and rise with every tide.
Time may seem to end, as school life slowly comes to a closure,
But the bond between teachers and students shall thrive forever.

Concerned about our students,
We live being protective.
Laying out hands gently
To bless and to be blessed.
Living this life
Brings us vibes
Of times unknown
And times well known.
Moulding an earthen pot,
Giving shape with solitude.
Growing each day,
Getting moulded in every way.
Shining bright as stars,
Twinkling in the galaxy,
Spreading light and care
In every way.
Rising above our aspirations,
Reaching our goals slowly,
Hankering for divine rising wholly
By being altruistic.

Genuine reasoning,
Genuine work,
Living and aspiring like never before,
Guiding the way toward success.
Living your dreams
With all your screens,
Highly susceptible,
To all creations.
Giving your best
And leaving the rest
To God Almighty,
Who will help us grow
To greater heights
With endless aspirations,
Blessed with this life,
Giving happiness forever
By being ALTRUISTIC!!!

MOVING DAY

Boxes lay scattered about,

Photo frames are off the wall,

Clothes stashed away along with doubts,

A moment longer, but there's no time to stall.

Time to bid goodbye to that dent in the door,

Farewell to that chip in the marble floor,

Evidence of a house well lived in,

Inconveniences to the new owners,

But to us, fond memories that linger within.

Adieu to that wall marked by our growing height,

Goodbye to that stray cat that would visit us at night,

A final nod to the windows now shut tight,

A final glance at the doorway bathed in the fading light.

The house remains unchanged as we move on,

Waiting to echo a new story once we are gone.

THE IMPORTANCE OF HUMAN TOUCH IN THE JOURNEY OF HEALING

"Life doesn't make any sense without interdependence. We need each other and the sooner we learn that the better for us all." – Erik Erikson

Physical contact, a basic human need, is essential for mental and emotional health. Touch is one of the first senses to develop from birth and is the main way we interact and communicate. One of the most effective ways to improve mental and emotional wellness is through human contact. According to studies, touch can improve feelings of security and trust as well as deepen relationships. It achieves varied results, from boosting social ties and enhancing therapeutic outcomes to lowering tension and anxiety. Hugs, handshakes and even a pat on the back are examples of physical contact that cause the production of oxytocin, sometimes known as the "hormone of love." It is well known that oxytocin lowers stress and anxiety and fosters feelings of closeness.

A person who craves warmth and love in their daily routine ought to keep their pillow close to them in order to have a restful night's sleep. Every time someone gives you a hug the energy they impart makes you smile and makes them feel the same way about themselves and the people around them. It is critical to acknowledge and value the therapeutic benefits of touch as society works through the difficulties of contemporary living. Improving mental health and creating a more compassionate and connected environment can be greatly aided by promoting increased interpersonal interaction in safe and suitable ways.

And so if you give someone a hug, a smile or even a high five don't forget to spread the good energies that strengthen and improve the connection you have. When our parents give us hugs and kisses and wish us a good day we receive a daily dose of oxytocin. As we grow in life it is important to remember that the warmth that was once given to us must be offered back to them and to all our loved ones. A tiny act of kindness can open hearts to healing and transform a person's mood from stormy to peaceful.

Sometimes it is better to put love into hugs than to put it into words. It has a significant effect even if it is only for a minute or two.

"At times a hug is all you need."
